TEMA: HABITAÇÃO DE INTERESSE SOCIAL
PROJETO TCC1 ARQ. E URB.

ALUNO:LUCCA TOLEDO

RGM:27799476

Nesta prancha podemos conferir a arquitetura dos projetos de Habitação de Interesse Social situado no município de Luziânia - GO, com endereço em Avenida José Rodrigues dos Reis, Quadra 17, Lote A-02, Parque JK - Setor Mandu.

Observa-se a variação de arquitetura das casas, aprimorando o conceito de habitação popular, assim gerando mais identidade para a região. Luziânia é uma cidade de desenvolvimento tardio, a grande maioria das HIS são feitas pela Caixa, com isso nesses bairros mais afastados nota-se uma predominância de casas iguais. Nessa prancha pode-se conferir a planta baixa; planta de cobertura e cortes de 6 (seis) tipos diferentes de conceitos de projetos.
